PRE -AWARD BUY AMERICA COMPLIANCE CERTIFICATION

As required by Title 49 of the CFR. Part 663 - Subpart B, **Department of Rail and Public Transportation** (the recipient) is satisfied that the vehicles to be purchased, Low-Floor Body-On-Chassis Cutaway from Arboc Specialty Vehicles, LLC and Optimal EV Electric Vehicles, LLC. meet the requirements of Section 16(b)(3) of the Surface Transportation Assistance Act of 1982, as amended. The recipient has reviewed documentation provided by the manufacturer, which lists (1) the proposed component and sub-component parts of the buses identified by manufacturer, county of origin, and cost; and (2) the proposed location of the final activity point for the buses, including a description of the activities that will take place at the final assembly point and the cost of final assembly.

Buy America Certification

Federal Transit Administration

49 CFR Part 661 Buy America Requirements

Optimal Electric Vehicles, LLC. Assembles all structural elements of the bus, other than the OEM chassis, and installs them into a commercially produced chassis platform. The bus body is fabricated by welded steel floor assemblies and four molded composite panels for the bodysides, roof and back panel. These sub-assemblies are then bonded together with supplemental fasteners to form the basis components of the body structure.

The conversion to electric drive systems are installed on the vehicle at the beginning of the build process. Moving forward the completed body structure is then placed on the vehicle in a single piece assembly. All heating and air conditioning equipment are installed as part of the final assembly of the vehicle. All wiring harnesses and electrical components are installed as well as the passenger seats, passenger grab rails, wheelchair lifts, and other options specified by the customer.

All buses are pressure water tested for leaks as well as road tested and inspected for compliance to specifications prior to delivery. All buses must meet 2020 Buy America Requirements.

All bus assembly operations take place at Elkhart, IN.

Signed,
